# W Series Products

## Expansion Joint Cover Systems Introduction

W20-WS-SA Illustrated

### **Description:**

The W Series consist of various designs for waterproof or water resistant conditions for floor and wall expansion joint applications. Typical designs are wing seals, compression seals, epoxy bonded seals, Split Slab Paver systems and Metal systems with Seismic Motion attachments. Elastomeric seals are attached with our JointCrete® elastomeric concrete header with Jointcrete® Epoxy or structural sealants that provide moisture protection at the expansion joint. Metal systems are Cast In Place or attached with mechanical fasteners.

### **Options:**

Floor to Floor, Floor to Wall, Wall to Wall, Corner Wall, Seal colors vary based on model and range from santoprene to silicone product selections. Topping Slab systems accommodate optional paver depths.

### **Typical applications:**

Heavy Duty, Open air Structures, Parking decks, Arenas, Stadiums, Exterior conditions.
